

# Mezzanine Applications

SVS - What the different color codes mean

**mezzanine**

creating productive societies

# SVS Color Coding

## Color Definition

The base colors are:

Status	Meaning
	Stockout
	No stock update within 3 weeks (21 days)
	No stockout, updates are up-to-date

# SVS Color Coding

These base colors are defined by the “Product View”  
Then, when pack-sizes or vendors come into play:

Status	Meaning
	Stockout
	Stockout, but pack-sizes or alternatives vendor available
	No stockupdate within 3 weeks (21 days)
	No stockout, updates are up-to-date

# SVS Color Coding

These are the alternative colors defined by the “Alternative view”

Then, the comments in the code are as follow:

Status	Meaning
	No stock levels submitted for one or more items loaded for specific facility
	If there was no stock update for 31 days
