Stock Visibility Solution - Calculation

For a facility to achieve 100% on reporting they specify that a facility has to update at least 80% of their stock levels by end of week (Friday).

Facilities reporting:

(% of facilities with reporting frequency aligned with the provincial reporting schedule)

| | |
|-----------------------|--|
| Numerator: | No of facilities which have updated 80% or more of their stock levels by end of week (Friday). |
| Denominator: | Number of PHC facilities registered to use the SVS in the specific area (province/district). |
| National dashboard: | Present by province, all PHC facilities registered on the SVS. Excluding Western Cape. |
| Provincial dashboard: | Present by districts, all PHC facilities in the province registered on the SVS. |
