

What's new?

We are happy to announce that the following changes will be available on your eLABS application from **Tuesday, 6 Aug 2019, 18:00**:

Web Portal

Reports

We changed the default date for all reports to the first day of the current month and the last day of the current month for your convenience.

Parent Level	<input type="text" value="N/A"/>	
Parent Hierarchy	<input type="text" value="National"/>	
Viewing Level:	<input type="text" value="National"/>	
Start Date	<input type="text" value="2019-08-01"/>	
End Date	<input type="text" value="2019-08-31"/>	
<input type="button" value="View Menu"/>	<input type="button" value="Filter"/>	<input type="button" value="Glossary"/>

Operational Dashboard

The following columns have been added to the Operational Dashboard:

1. "First Delivery" - Count of first deliveries.
2. "Second Collection" - Count of first collections.
3. "Second Delivery" - Count of second deliveries.

Mobile Courier

Data not available

When a sample is scanned to collect a batch, the "No. of items" linked to the batch will show in the second column of the table "LIST OF SCANNED SAMPLES". In the case where the batch and its linked samples have not yet synced to the eLABS backend then the message "Data not available" will show. This is nothing to be concerned about - the data will update once synced.

< eLABS

Sample Collection

Press "Scan barcode" to scan sample barcode.

Scan barcode

If you can't scan the barcode, enter the barcode number below.

Enter Barcode:

Submit Manually

LIST OF SCANNED SAMPLES

Barcode	No. of Items

Deliver All

We returned the "Deliver All" button to couriers. Please note that when you would only like to deliver a single batch or specific batches to a location, then you need to scan a sample from each of the batches to deliver them, BUT when you would like to deliver ALL batches - then you may use the "Deliver All" feature.

The screenshot shows the "Sample Delivery" screen in the eLABS mobile app. At the top, there is a navigation bar with a back arrow, the text "eLABS", a refresh icon, and a menu icon. Below the navigation bar, the title "Sample Delivery" is centered. Underneath the title, there is a prompt: "Press 'Scan barcode' to scan sample barcode." This is followed by a button with a camera icon and the text "Scan barcode". Below this button, there is a message: "If you can't scan the barcode, enter the barcode number below." This is followed by a text input field with the placeholder text "Enter Barcode:". Below the input field, there are two large green buttons: "Deliver all" and "Submit manually". Below these buttons, there is a section titled "SCAN LIST OF ITEMS" with a sub-header "Barcode". Below the sub-header, there is a message: "No items to display". At the bottom of the screen, there are two more large green buttons: "Done" and "Back".
