<input type="button" value="Edit"/> <input type="button" value="Archive"/> <input type="button" value="Generate Enrollment Code"/> <input type="button" value="Re-enrol Service Point"/> <input type="button" value="Add Order Entry"/> <input type="button" value="Remove Order Entry"/>	Nicola HCF	1992		Order entry active

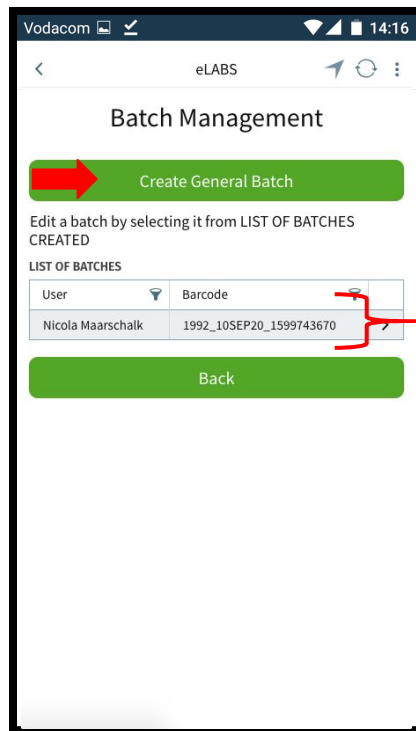

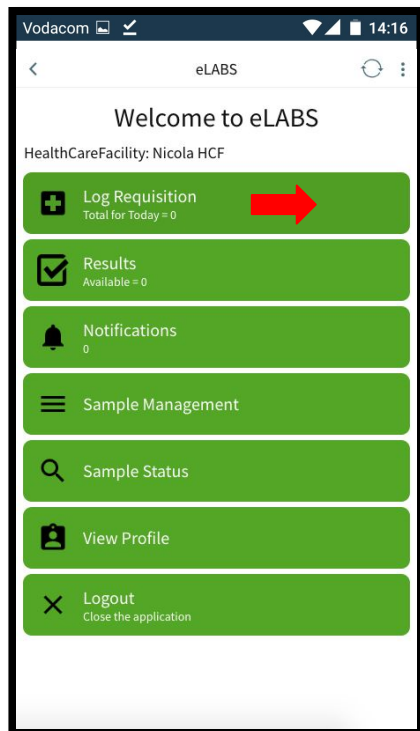

Click on "Add Order Entry", then a pop-up will appear that indicates the number of users that are granted the permission. Should you like to change the permissions for individual users, please navigate to that serviceprovider.

Servicepoint: Healthcare Facility

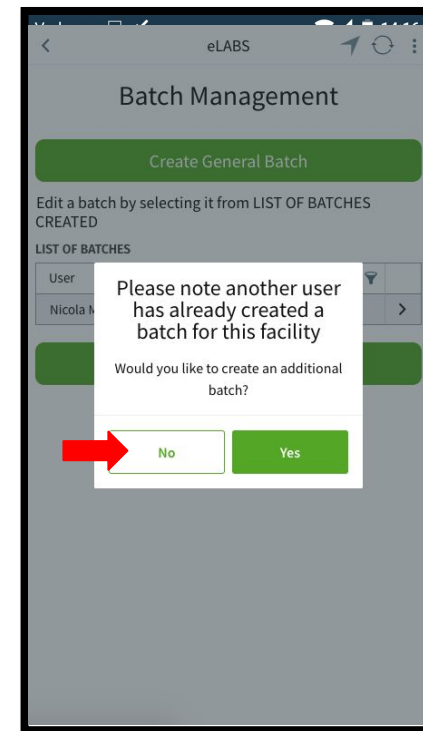

Log Requisition: NO "Full Order Entry"
Permission

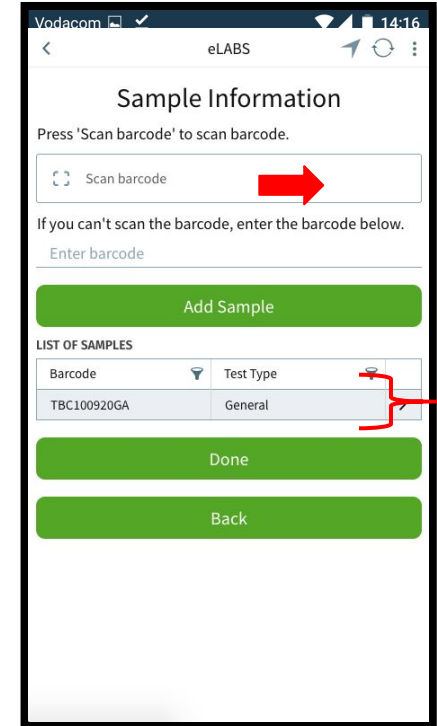

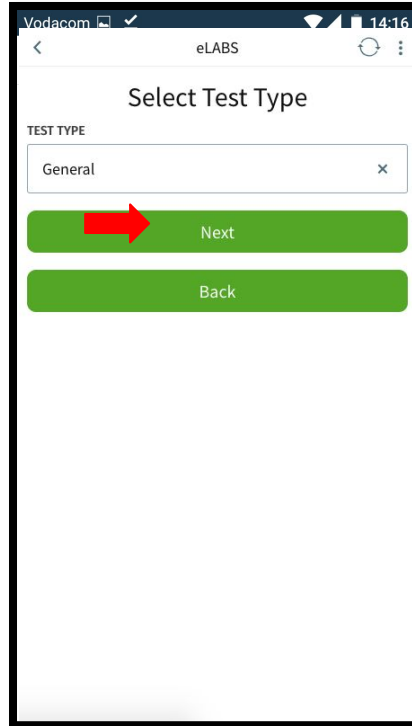

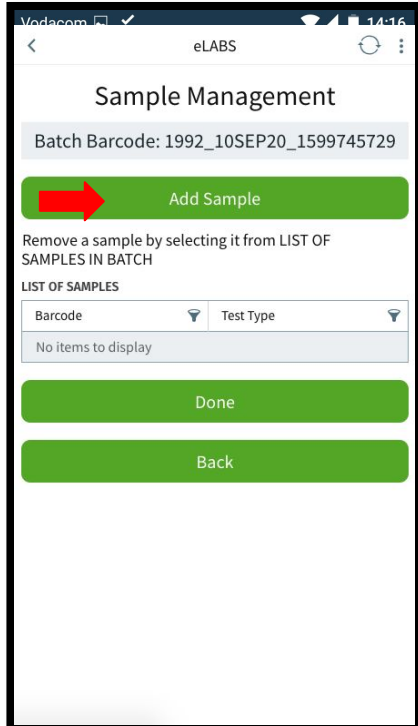

Log Requisition *(create batch)*

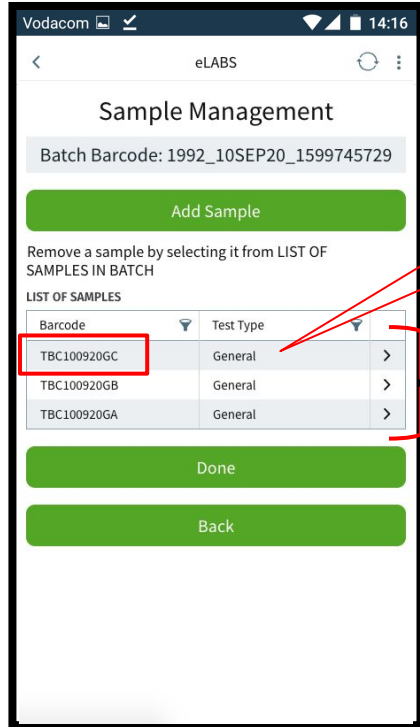

Notes:
Please note that each user is limited to 1 batch. If you would like to use an existing batch on your device, select the batch from the list. If the batch has been collected, but still shows on the device, simply navigate to **Sample Management** and mark the batch as collected. Then create a new batch.

Log Requisition *(add samples to general batch)*

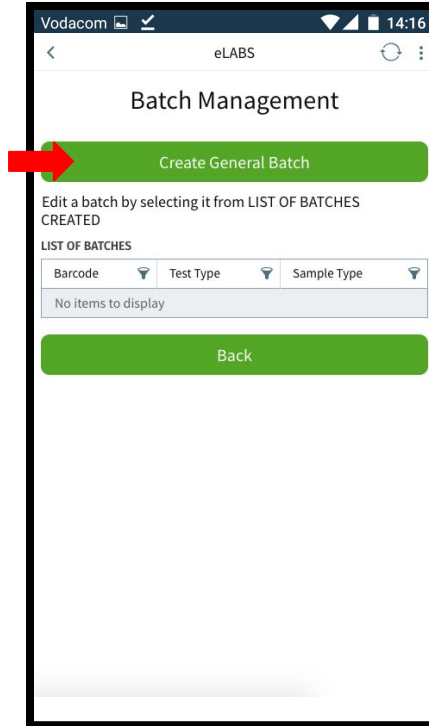

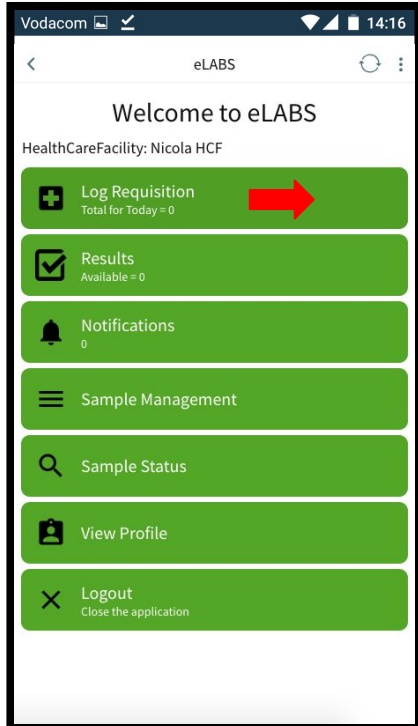

Log Requisition *(confirm sample)*

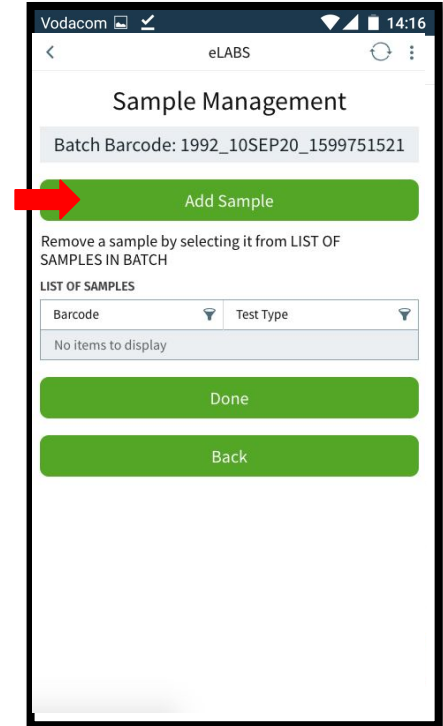

Most recent scanned sample listed at top.

Log Requisition: "Full Order Entry" Permission

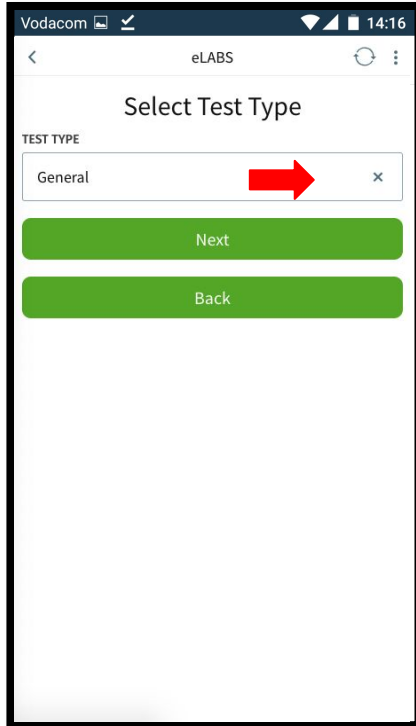

Log Requisition *(create a COVID-19 batch)*

Notes:
Please note that each user is limited to 1 batch per batch type. If you would like to use an existing batch on your device, select the batch from the list. If the batch has been collected, but still shows on the device, simply navigate to **Sample Management** and mark the batch as collected. Then create a new batch.

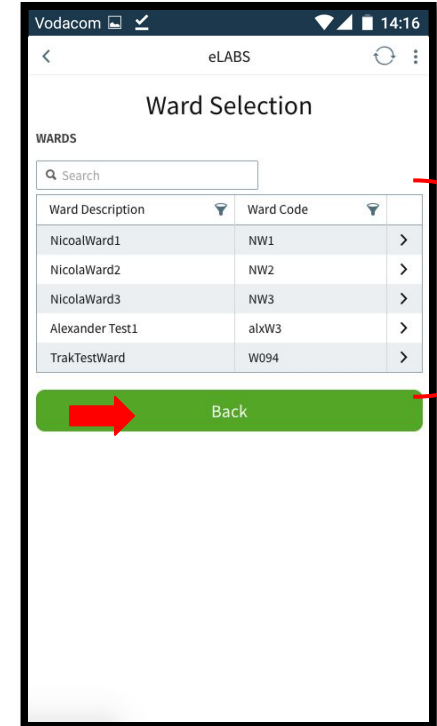

Log Requisition (COV2PCR Sample)

Notes:
To log a general sample (all test types including VL) please refer to slide 11.

Notes:
Select the ward you are assigned to.

Log Requisition (COV2PCR Sample)
