

What's new?

We are happy to announce that the listed changes will be applied to your eLABS application **25 June 2021 at 17:00**.

Mobile: Date filter to Electronic Results

eLABS now has the ability to filter results on their release date (date they were authorised), if the results are locally available on the mobile device.

The screenshot shows the 'Browse Results' screen in a mobile application. At the top, there is a search bar with a magnifying glass icon and the text 'Search'. Below this is a section titled 'SEARCH' with a text input field containing 'Enter Search'. Underneath, there are two date filter sections: 'FROM DATE' with a date picker set to '02 Jun 2021' and 'TO DATE' with a date picker set to '20 Jun 2021'. Below the date filters are two green buttons: 'Search' and 'Reset'. The 'RESULTS:' section contains a table with the following data:

Sample Barcode	Name Surname	Test Type	
JW20210624A	Julian Wissing	VL	>

Below the table, there is a note: 'Only a limited number of results are shown, please use search to find a specific result.' At the bottom of the screen is a green 'Back' button.

Mobile: eGK code added to electronic result

eLABS now has the ability to capture the eGK code from the integration and display it on the electronic results.

Selected Result	
SAMPLE DETAILS	
Barcode:	JW20210624A
Test Type:	VL
Sample Type:	Unknown
Referred by:	
Time sample taken:	2021-05-31 22:00
Test date:	2021-06-20 00:00
Tested By:	instrument
Authorized date:	2021-06-20 00:00
Authorized by:	Julian
Received date:	2021-06-20 01:00
eGK Code:	67897
eGK Description:	Some Decription
RESULT	
Result:	3345

Web: Result Summary Dashboard

eLABS has added pregnancy and breastfeeding fields to item level data on Results Summary Dashboards (VL and COVID).
